GSATS Demonstration Grant Award

Demonstration Grant Award!

AWARDED!

On November 15, 2024, the US Department of Transportation announced that GSATS was awarded a grant for emergency service vehicle signal preemption (EVP).

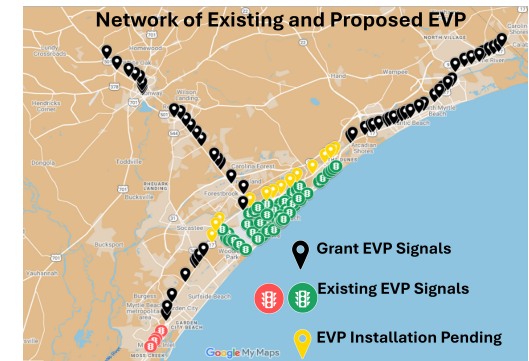

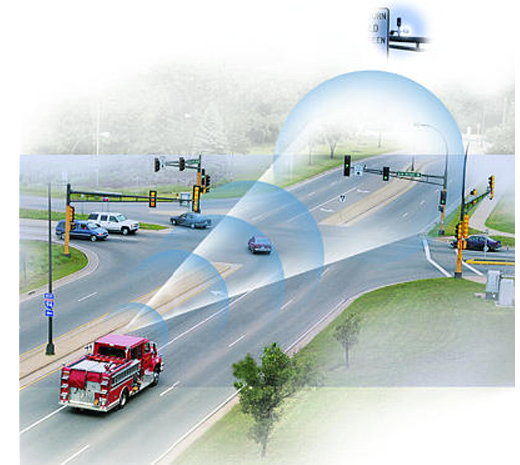

An EVP system prioritizes green lights for emergency response vehicles approaching signals at an intersection.

EVP reduces response time for first responders and improves intersection safety.

This grant award will provide EVP on US 501 and US 17 and connect with systems in Myrtle Beach and Georgetown County.

Lead Applicant	Project Title	Application Type	Urban/Rural	Funding Award
Grand Strand Area Transportation Study	Grand Strand Area Transportation Study Preemption Signal System	Conduct Demonstration or Other Supplemental Planning Activities (only)	Urban	\$800,000
